

OrbitalPaint Solutions

Aerospace Coating | Material Supply | End-to-End Paint Solutions

Who We Are

OrbitalPaint Solutions is a specialized aerospace coating service provider delivering high-performance painting solutions, material supply, and technical expertise tailored for aviation and defense industries.

Why Choose Us

Aerospace-focused expertise
End-to-end solution provider
Cost-effective & scalable services
Industry-standard compliance
Skilled technical support

What We Offer

Aerospace Painting Services

- Component & structure painting (as per aerospace standards)
- Surface preparation & finishing
- Rework, touch-up & inspection support
- Customer-supplied material processing (job work model)

Paint & Raw Material Supply

- Aerospace-grade paints, primers, thinners, hardeners
- Support with material selection as per specifications (MIL, OEM, etc.)
- Vendor coordination & sourcing assistance

Paint Booth Setup & Consultancy

- Complete paint booth planning & setup guidance
- Vendor identification & cost optimization
- Layout design, airflow & compliance support

Training & Certification

- Aerospace painting training (Online & Offline)
- Practical + theoretical modules
- Industry-recognized certification
- Skill development for technicians & organizations
